

CABBAGE AND PEANUT SALAD

To ONE and one-fourth cupfuls of finely shredded cabbage, add one-fourth cupful of chopped roasted peanuts, salt and pepper to season, and mayonnaise dressing to mix well. Heap in a salad dish on a bed of crisp lettuce leaves, garnish with celery tops. Instead of the peanuts blanched and roasted almonds, or plain English walnut, pecan or hickory nut meats may be used and if good lettuce is not obtainable select medium size tart apples, hollow them out for cups to hold the salad, and mix a very little of the apple pulp, chopped, with the other ingredients. A French dressing may be substituted for the mayonnaise if the latter seems somewhat too rich.
