

CHERRY BON-BONS

Place a piece of nut-meat inside each maraschino cherry and dip the cherries in fondant. Make stems of thin green wire (you can get it in spools at any fancy paper house). Use one wire bent double for each pair of cherries. Tie a tiny green ribbon bow at the tip to suggest young cherry leaves. Serve in a broad, low glass bowl. Nice for tea or after dinner service, or as a tidbit after bridge.
