

*A new flavor—date and cranberry pie*

Blend 1½ tablespoons of flour with two tablespoons of water. Stir this into 3 cups of hot cranberry sauce. Cook for three minutes. Add 1 cup of pitted and sliced dates. After cooking, pour into pie-dish, which has been lined with crust. A lattice top-crust is most appropriate for this delicious pie. Bake for 35 minutes, with hot oven for first ten, then reducing temperature. Another delicious pie is made by adding sliced dates to the usual custard-pie ingredients.
