

MINUTE BLACKBERRY PIE

Your juices will not run over, your crusts will not become soggy, if you use Minute Tapioca as a thickener for fruit and berry pies. It adds nutrition, improves the flavors, and positively will not lump. Line a pan with your favorite pie-crust. Fill with blackberries or blueberries, sprinkle with sugar, pinch salt, and 1 tbsp. Minute Tapioca. Add top crust and bake in moderate oven 45 to 50 min.
