

ONION SALAD

PEEL and chop fine, six medium sized onions. Add salt and pepper to season, one-half cupful of diced celery, and mayonnaise dressing to mix well. Heap in a salad dish on a bed of crisp lettuce leaves. Press one hard boiled egg through a sieve and sprinkle over the salad. Garnish with small slices of pickled beets and serve. If lettuce is scarce, finely shredded cabbage may be used instead. Get a small hard white cabbage, pull off the coarse outer leaves, and shred with a slaw cutter or sharp knife. Do not chop, as finely chopped raw cabbage is very hard to digest.
