

Pineapple and Cress Salad.

This is a beautiful jellied salad,

made in three layers. Make up two recipes of lemon jelly-powder, allow it to begin to set. To 1-3 of it add shredded pineapple and pour into a previously rinsed square or oblong pan. Allow to partially set. To another 1-3 add chopped watercress in large quantity, and pour on top of the first layer. Finish with another layer of pineapple, using up the rest of the jelly mixture with it. Let harden. Turn out, cut in slices and serve on lettuce with green mayonnaise.
