

## QUICK PIE CRUST.

One cup of shortening, one-half cup of boiling water, three cups of flour, one half teaspoon of baking powder, salt. Put any kind of shortening into a mixing bowl and pour over it the boiling water. Beat until creamy. Then sift in the flour, baking powder and salt (one half teaspoon of salt if butter is used, or one teaspoonful for lard). Stir all together and roll out. This is enough for two pie crusts.
